Description of the demo video

The user-story demo video will show:

- US#4.3: Remote driver controls vehicles through multi-PLMN coverage area, using dual-modem /dual-SIM solution to achieve 4G->5G, China Mobile->China Unicom network switching.
- US#1.3: During crossing complex intersection, the cloud-assisted vehicle completes intersection coordination, changing lane to avoid collisions, and giving way to pedestrian.
- US#2.3 Cloud-assisted trucks with platooning are driving across the virtual cross-border area on the highway.
